20a. How does the Committee accomplish its purpose?

This committee is composed of recognized biomedical and/or behavioral research authorities who represent the forefront of research and technical knowledge and who provide first-level merit review of highly scientific and technical research grant applications in the field relevant to drug abuse in the areas of biomedical, basic and clinical neuroscience, basic behavioral science, treatment, health services, epidemiology, prevention, human development, and AIDS. During this reporting period the committee reviewed 712 applications requesting \$1,433,336,902 and reviewed 11 contract proposals.

20b. How does the Committee balance its membership?

Operation of the Special Emphasis Panel is accomplished using a fluid membership, with members designated to serve for individual meetings rather than formally appointed for fixed terms of service. The reviewers for each meeting are selected to evaluate grant applications or contract proposals for a specific, perhaps narrow, expertise area. Participants for each meeting are assembled to most efficiently and effectively cover the number and breadth of applications or contracts requiring review. The members designated to this committee are authorities knowledgeable in the fields of biomedical, basic and clinical neuroscience, basic behavioral science, treatment, health services, epidemiology, prevention, human development, and AIDS.

20c. How frequent and relevant are the Committee Meetings?

The committee held 59 meetings during this reporting period. Members also participated in other activities on the following dates: 10/6, 10/30 (2), 12/15, 1/10, 1/31 (2), 5/30 (2), 6/11, 8/25

20d. Why can't the advice or information this committee provides be obtained elsewhere?

This committee is composed of recognized biomedical and/or behavioral research authorities who represent the forefront of research and technical knowledge and who provide first-level merit review of highly scientific and technical research grant applications and contract proposals. These evaluations and recommendations cannot be obtained from other sources because the specialized, complex nature of the applications and proposals requires a unique balance and breadth of expertise not available on the NIH staff or from other established sources.

20e. Why is it necessary to close and/or partially closed committee meetings?

The meetings of the committee were closed to the public for the review of grant applications. Sections 552b(c)(4) and 552b(c)(6) of the Government in the Sunshine Act permits the closing of meetings where discussion could reveal confidential trade secrets or commercial property such as patentable material and personal information, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

21. Remarks

This committee did not produce any reports this reporting period. The DFO and Committee Decision Maker positions are held by the same individual based on assigned duties within the IC.

Cost Savings Comments

NIH supported basic and clinical research accomplishments often take many years to unfold into new diagnostic tests and new ways to treat and prevent diseases. Also, there are no comparable alternative mechanisms to determine cost savings accrued using the current committee structure.

What is the approximate Number of recommendations produced by this committee for the life of the committee?

8,844

Number of Recommendations Comments

NA

What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?

0%

% of Recommendations Fully Implemented Comments

NIH Peer Review Committees are involved in the initial review of research grant applications. The NIH dual peer review system is mandated by statute in accordance with section 492 of the Public Health Service Act. The charge to this committee is to determine scientific and technical merit of the individual grants or contracts. These recommendations are forwarded to Federal officials who generally accept the committee's recommendations and favorable applications are then forwarded for the second level of review performed by Institute and Center (IC) National Advisory Councils or Boards. Only applications that are favorably recommended by both the initial peer review committee and the Advisory Council may be recommended for funding.
